

Madagascar

The fourth largest island of the world, **Madagascar**, is situated in the Indian Ocean about 400 km off the African east coast. Over 1500 years ago it was settled by Asian sailors, who brought as part of their heritage the roots of the language "Malagasy" and the know-how of rice agriculture with them.

Although Madagascar disposes of huge geological, biological and cultural potential and though it maintains a favourable basis for agriculture, mining and tourist growth, the day-to-day struggle for survival is predominant to most Malagasy. Nearly 90 % of the population must get along with a daily income of less than 1,25 US\$ per day. To improve this, education becomes a key factor in light of an average population age of less than 19 years.

The association

NY HARY Deutschland e.V. aims to contribute to a better use of the rich natural, cultural and economical potential of Madagascar by providing young Malagasy with appropriate know-how and social values.

A Malagasy proverb says: 'He, who doesn't find a life-task when young, will be empty-handed when old'. 'MIHARY' describes the quest for a life task, which is the basis of all progress.

Since our foundation in 2004 we have committed ourselves in the city of Miarinarivo of Madagascar to introduce perspectives to disadvantaged children by granting access to education. The name **NY HARY** shall encourage our students to find a life-task in order to make their own contribution to the improvement of their living conditions.

Our **school canteen** and the **dormitory** secure basic supplies thus children in need can take advantage of education. The **public youth center** offers extracurricular courses which shall increase knowledge, convey social values and/or built up personalities, thus furnishing students with tools needed to improve their own lives.

The entire NY HARY-Team in Germany works on a voluntary basis. Our **founder Stefan Büschelberger** ensures as project manager earmarked use of subsidies on site. The children in Madagascar directly profit from your aid with less than 1 % spent on administration.

Our project

The center of education **ALABRI** ("in safety") in Miarinarivo, Madagascar facilitates access to education for children from rural areas.

The **dormitory** accommodates 60 students who attend schools in Miarinarivo and who originate from remote rural areas, where appropriate schools are missing. These children receive nutritious meals, clean drinking water, hygienic living conditions, medical care and pedagogical support.

The **school lunch** provides mainly primary school students in need with a healthy warm meal on schooldays. The children are exposed to a daily program "Learning while playing" where they acquire day-to-day know-how about various subjects and where they might practice understanding and creativity.

The **public youth center** is open to all pupils of the Miarinarivo schools. The center provides a library and an amphitheater; it organizes homework done under supervision, language courses, craft lessons, music teaching, lectures, cinema shows and concerts. With this program we invite students to better get acquainted with themselves and their surrounding world and as a consequence, that they actively influence their life expectancy. By doing this we aim to aid capacity building and to create ambassadors for progress.

„I think it is admirable, that you don't lean back in view of your actual achievements, that you even are going to intensify your commitment in Madagascar and that you plan to expand the work of your association autonomously and independently.

(Secretary of State Dr. Frank-Walter Steinmeier in his letter of September 30, 2014 to the NY HARY project manager)

Help now!

Project sponsorship

This sponsorship (10 Euro per month or more) supports the entire project without particular adoption. It improves sound long range financing of the center's operation, especially of the free school lunch and the educational activities of the public youth center, which enable young Malagasy to built their own future.

Scholarship

With a scholarship (10 Euro/month) or a "schoolmate"-grant (4 Euro/month) you will support a boy or girl who lives in our dormitory. We assign a particular student to each donor and leave it up to you to take up mail correspondence with your protégé. Since parental contributions are kept low and hardly cover the basic living expenses of a student, the children will receive several scholarships each to totally cover all expenses of our support. "Schoolmate"-grants are sponsored by a single student or an entire class of pupils who prefer to support a particular Malagasy "schoolmate".

Membership

A **membership** (36 Euro/year, for students and minors reduced tariff of 18 Euro/year) allows to participate in the association's activities. Besides, one can already achieve a lot with a membership fee: 36 Euro actually pay for example 100 meals all costs included.

Sponsors will receive NY HARY newsletters regularly

Yes, I want to help

NY HARY Deutschland e.V.

Esslinger Steige 16
D-73230 Kirchheim/Teck, Germany

- I sign one **project sponsorship** (10 Euro/month*)
- I would like to sponsor a child and have personal contact
- one **scholarship** (10 Euro/month*)
 - one **'schoolmate'-grant** (4 Euro/month*)
- I apply for **membership** of NY HARY Deutschland e.V. starting calendar year 20__:
- Adult (36 Euro p.a. *)
 - Concession (18 Euro p.a. *)

Herewith I authorize NY HARY to withdraw the marked sequential payments from my bank account

yearly quarterly monthly
by SEPA direct debit and I instruct my bank to pay these withdrawals accordingly.
